

Pedal to the Metal

Lazerhawk

Nobody can stop me now
My engine's revving faster than ever before
I won't stop for the traffic lights
I'm gonna break the speed limit by 80 or more
I'm burning up all the city streets
You know I can't wait to feed the beast
It's suicide crusin' up 45
You know what I mean? Built to die, oh baby (x2)
