

Take It All (feat. Avelino & Mic Righteous)

Charlie Sloth

[Intro]

One of the things that we must do is that we must be involved in working on achieving self mastery. You can listen to the same tape for months and all of a sudden you'll hear something you've never heard before, and have a special meaning for you

[Verse 1: Avelino]

Yeah, Ima take it easy on them even though I shouldn't

Did what I wanted even when they said I couldn't

First you get the money then you get the power then you get the women

You all wanna be niggas in Paris with a Stefflon Don who wouldn't

I'm a dreamer

Woke up had a Raddison Blu with a red bone

Told her I don't need head I need headphones

Get kisses and hugs from your ex O

It's a new generation on my reputation cause I'm next

Didn't plan it but I got a spaceship on the jet

Owe it to myself had to face a little debt

Get my dad a gold tooth would it pay my respects

Oh shit, take a trip don't trip

Fuck a guest list special list no list

And I'm getting show this is a show biz

Don't act up don't trap no wrist

Got kicks like I'm Bruce Lee

Walk in wardrobe then I do feet
Why you think in a group full of groupies
You can tell that I recouped when I pull up in a coupe just as you leave
Yeah, don't worry about me
Live your life don't worry about me
Girl don't ever leave your girl around me
All my niggas had drive now they skrr around me
Oh, don't worry about me
I ain't worried about nothing don't worry about me
All they said or say nothing when they heard about me
The new rap Mohammad Ali, yeah

[Interlude]

When you first wake up in the morning your mind is operating at 10.5 wave cycles per second.
That's when the subconscious mind is most impressionable. Whatever you hear in the first 20
minutes when you wake up, that will affect the spirit of your day. When you listen to tape,
listen with relaxed belief

[Verse 2: Mic Righteous]

They don't wanna swing it out
They don't wanna I'm the one that they don't wanna swing it out with
And every time I swing around
Bill it up bill it out spill it up was big as houses
I don't like to be in crowds
Cause my dick worth penis you shouldn't be allowed to be around in
I'm all up in your bitch's mouth

Step in it, in and out, in and out, in and out, in and out, in

Banging in the backyard getting out in

Go extra it's an adventure it's an outing

Bout to rip you out that little outfit

Think this great, shit wait till you've seen the mountain

I might've hit your Mrs in the pass but you can't be a kid about it

Yeah I hit your Mrs in the car check my finger in her arse so I never put my kid around it

I'm in your house get the liquor out

And you niggas down cause I'm about to lick it out

Fill it up fill up a cup until it's spilling out

Leave your pussy dripping out get a towel but to whip it now

Bill it loud grip it up bring it round give it that

[?] spin it round stick em up stick em down

When I'm done you're getting up ain't no sticking round

Fuck if it was a big told you I'm kicking up listen up

I've got the winner's star it's a must

You're looking like dinner now bitch get in my guts

You've probably figured out that I'm really just a cunt

Smoking spliff this big then I'm puffing out my lungs

Oh shit, that's the ringtone

Don't you dare open up that window

Say Mic's name in the mirror five times

I'll appear right behind you and the wind blows

Prr prr, that's the ringtone

You'll never feel my pussy break your shin bones

Your girl sent nudes think I've been loads
I'm on my way to blue and I'm about to print loads yes lord
