

One On One (feat. Sorana)

Tujamo

[Verse 1]

Waiting for your knock on the door
You'll be on your way, on your way to my place, boy
Never get enough, I don't know how
All I need, all I need is your touch

[Pre-Chorus]

When the new moon falling tonight
From the sky, you won't stop calling
And my name is your anthem
Baby, you make me purr-purr like a panther

[Chorus]

One on one, I'm a-looking for a big fun
All I, all I want is to get down
One on one, I'm a-looking for a big fun
With nobody, but your body
One on one, I'm a-looking for a big fun
All I, all I want is to get down
One on one, I wanna, wanna get down
With nobody, but your body

[Bridge]

And I really want you

I really want you, want you, baby

And I really want you

I really want you, baby

And I really want you

I really want you, baby

Tell me what you gonna do

And I really want you, want you

[Verse 2]

Like you wander out in the dark

I will steal your heart like a bandit

You ain't gotta get away

You ain't gotta get away

[Pre-Chorus]

When the new moon falling tonight

From the sky, you won't stop calling

And my name is your anthem

Baby, you make me purr-purr like a panther

[Chorus]

One on one, I'm a-looking for a big fun

All I, all I want is to get down

One on one, I'm a-looking for a big fun

With nobody, but your body

One on one, I'm a-looking for a big fun

All I, all I want is to get down

One on one, I wanna, wanna get down

With nobody, but your body

With nobody

With nobody, but your body

With nobody

With nobody, but your body

[Outro]

Tell me what you gonna do

And I really want you, want you

And I really want you

And I really want you, want you, baby

And I really want you

I really want you, baby

And I really want you

I really want you, baby

Tell me what you gonna do

And I really want you, want you
