

Monochrome

The Ruse

Slow down
We're gonna take our time and make this right
Drag out
Everything that's eating at your mind
So I deceived you cause I can't believe you and now I've turned the tide
So monochrome
I watched the color drain from you
Where's the color in this life?
Watch me doing all you've always feared
Just try and stop me
Pulling all the strings I can from here
So I deceived you oh
So monochrome I watched the color drain from you
Where's the color in this life
So monochrome
I took all I feared in you and that you must despise
It feels so good not to need you
It feels so good not to need you
But it's so sad to watch you fall
Cause I took it all
So I deceived you cause I can't believe you and now I've turned the tide
So monochrome
I watched the color drain from you
Where's the color in this life?
So monochrome
I took all I feared in you and that you must despise
