

# Crawl Outta Love (feat. Annika Wells)

## Illenium

We were so bright  
Standing in the sunlight  
Never got burnt  
We were alright  
Had that easy kind of love  
And I let it in  
For a moment  
Felt like we were floating  
Baby, I swear, we were golden  
It was easy, natural as breathing air  
And when the sky went dark  
You think I would have known  
Before we let it get this far  
I should have let you go  
Now I gotta crawl outta love  
Now I gotta crawl outta love  
It's so fucking easy to fall in  
But now that I see what you promised  
Tell me how to crawl outta love  
Tell me how to  
Now I gotta crawl outta, crawl outta love  
Tell me how to  
Now I gotta crawl outta, crawl outta love  
Got your words right  
Always knew what to say in our fights  
Look at us now  
Hard as I try  
I get halfway up the wall and you pull me down  
And when the sky went dark  
You think I would have known before we let it get this far  
I should have let you go  
Now I gotta crawl outta love  
Now I gotta crawl outta love  
It's so fucking easy to fall in  
But now that I see what you promised  
Tell me how to crawl outta love  
Now I gotta crawl outta, crawl outta love  
Tell me how to  
Now I gotta crawl outta, crawl outta love  
Crawl outta, crawl outta  
Crawl outta, crawl outta love  
And when the sky went dark

You think I would have known before we let it get this far  
I should have let you go  
Now I gotta crawl outta love  
Now I gotta crawl outta love  
It's so fucking easy to fall in  
But now that I see what you promised  
Tell me how to crawl outta love  
Now I gotta  
Tell me how to crawl outta, crawl outta love  
Tell me how to  
Now I gotta crawl outta, crawl outta love
