

# The Hives-Introduce the Metric System In Time

## The Hives

Been trying for all my life  
But I can't add up your subtraction  
Work, eat, play then go to sleep  
That won't get me no satisfaction  
Gotta find a way out, yea  
A way out of this mess  
So sick of trying to make my time last  
An' ending up with less  
Know your way of doing things and it  
Lost its attraction  
Why settle for twenty four  
When I can have a hundred fractions?  
Who knew I'd be the one  
Pulling off that perfect crime?  
So here's my new line  
I'll change your mind  
And the metric system to time

Caused trouble all over the town  
An' it's bound to start a reaction  
Metric time will come around  
It's gonna overtake your contraction  
I've found a way out, yea  
A way out of this stress  
I made my time last and it's  
Total success  
Got my way of doing things  
And it's bound to gain your attraction  
Hundred hours is my supply  
It's gonna give us all satisfaction  
No doubt I'd be the one  
Pulling off the perfect crime  
So here's my new line  
I'll change from mind

And the metric system to time
