

# Free on the Wing (feat. Gregg Allman)

## Blackberry Smoke

Little red bird outside my window today  
big blue sky above his head  
he don't know that she is leaving me today  
he ain't crying over what we had

Free on the wing to head straight into the sun  
one love story's over and another's just begun  
We come and we go life surely goes on  
we might find what we search for all along

Some go looking for a little change of scenery  
maybe try to wipe the slate clean  
others just seem like they ain't ever gonna settle down  
they're just wired to be in between

Free on the wing to head straight into the sun  
one love story's over and another's just begun  
We come and we go life surely goes on  
we might find what we search for all along

People just want you to be  
what they want you to be  
nothing ever turns out to be  
the way we thought it would be

Free on the wing to head straight into the sun  
one love story's over and another's just begun  
We come and we go life surely goes on  
we might find what we search for all along
