

Know My Name (feat. Lupe Fiasco)

Blake Lewis

I saw your picture in the paper today, girl
All of a sudden it hit me
You're someone that should know me
Possibly drive me crazy
In the pages and all over the magazine covers
People gossip about you and your long list of lovers
(You don't)
Girl, you don't know about me but you will, that's for sure
Let's start with an introduction
I want you to know my name
Take a little sip with some conversation
It's driving me insane
What's it gonna take for some motivation?
I want you to know my name
Girl, I just ain't got no shame
Them other guys causing you pain
I'll show you that I'm not the same
Not the same
I swear to you I'm not the same
Ooh, ooh
I've got this question I keep asking myself
Are you my cure for addiction?
Are you love's definition
Or just bad for my health?
There's only one way to find out
What we need is each other
Make our own little story
We could start it today
I want you to know my name
Take a little sip with some conversation
It's driving me insane
What's it gonna take for some motivation?
I want you to know my name
Girl, I just ain't got no shame
Them other guys causing you pain
I'll show you that I'm not the same
This is how it's gonna look, just like this
You and me pretty girl and a future of bliss
You want a dog, white fence, maybe couple of kids
Anything I'm a bring you just make me a list
(Lupe Fiasco)
My name's LF
Less like a verse, more like a rebel yelleth
At the top of your lungs
I boss like the last level, so level headed
Impressed with no pressure and negligible efforts
So that's stupid fresh with incredible aesthetic
Or super-deaf with a reputable perceptive
I'm sharp on both side, I'm so double-edged
I've done a lot and my next exceptional objective, is to make you a member of the club

Team 1st & 15th, FNF UP!
You'll like it over here, atmosphere's all love
Tune-in and drop out, your brain's on uh
So keep your eyes on me
You're yesses on TEN and your why's on THREE
Your nose on none, and your fears all the same
Check your new tattoo, you want to know my name
It's like.I promise I can make you smile, oh
I swear that I'll be worth your while
I promise I can make you smile, oh
I swear that I'll be worth your while
All I wanna do is know youI want you to know my name
Take a little sip with some conversation
It's driving me insane
What's it gonna take for some motivation?I want you to know my name
Girl I just ain't got no shame
Them other guys causing you pain
I'll swear to you I'm not the sameI want you to know my name
Take a little sip with some conversation
It's driving me insane
What's it gonna take for some motivation?
(What's it gonna be?)I want you to know my name
Girl I just ain't got no shame
Them other guys causing you pain
I'll show you that I'm not the same
(I swear)I swear to ya
I'll show you that I'm not the same
I swear to ya
Not the same
