

Anything's Possible

Zero dB

Kingdom

Kingdom

Kingdom

Anything is possible, anything is possible

Anything is possible, anything is possible for You

Kingdom

Kingdom

Kingdom

I know that you've been thinking, I see it in your eyes
You're holding on to something, still you don't know why

So walk by faith and not by what you see

Trust your heart and let yourself believe, believe

I can do things, things you never knew

Change your world, make it all brand new

I can do miracles if you want Me to

Anything is possible for You

Anything, anything, anything

Anything is possible

Anything, anything, anything

Anything is possible

I know your heart's been broken, you feel so all alone
But I will never leave you lonely, I'll never let you go

So walk by faith and not by what you see

It's up to you to let your heart believe

I can do things, things you never knew

Change your world, make it all brand new

I can do miracles if you want Me to

Anything is possible, anything is possible

Anything is possible, anything is possible

Anything is possible for You

Kingdom

Kingdom

Kingdom

If I can make the Heavens, if I can make it rain
If I can make your heart beat, then I can ease your pain

If I'm the only answer, the only one that's right

Why are you still searching? Why do you still fight?

When I can do things, things you never knew

Change your world, make it all brand new

I can do miracles if you want Me to

Anything is possible for You
Anything, anything, anything
Anything is possible
Anything, anything, anything
Anything is possible
Kingdom
Kingdom
Kingdom
Things, things you never knew
Change your world, make it all brand new
I can do miracles if you want Me to
Anything is possible for You
