

Bending the Willow

Sometree

this summer calm / came down
all over my head
I sold heart to the one
I tend to forget

you're all over me
senses fade and bleed
wait out the difference in between
you're all over
you're all over me

it's too familiar
I'm not ... this time
you speak but you don't mean it
when you cross that line

once I ... me
... the blue
I keep on going
straight to nowhere
I can't find my way out
turn the lights on me
I'm going under there ?
you're running over me

you're all over me
senses fade and bleed
wait out the difference in between
you're all over
you're all over
you're all over me
senses fade and bleed
wait out the difference in between
you're all over
you're all over me
