

Fugitive (Richard X Extended Mix)

Pet Shop Boys

[Verse 1]

Now is the time of our lives
But it won't last long
We're strong and in spite of the fight
You sing this song
It's always a new day in Heaven
There's always a new way to Heaven

[Chorus]

You are my brother
I'm really gonna miss you
You are my brother
You gonna take me with you?
You are my brother
Forever

[Verse 2]

Where do we stand in this land
We're invisible now
Clean and prepared to be led
Indivisible
It's always forever in heaven
We'll all be together in heaven

[Chorus]

You are my brother
I'm really gonna miss you
You are my brother
You gonna take me with you?

We'll be together
Now and forever
We'll be together
Now and forever

[Bridge]

I know that it won't be that long
Until the hour
Free and released from the world

It feels like power

[Chorus]

You are my brother
I'm really gonna miss you
You are my brother
You gonna take me with you?
You are my brother (Now is the time)
I'm really gonna miss you
You are my brother (Now is the time)
You gonna take me with you?
