

# Headphones (feat. Nelly Furtado)

Nelly

I turn my headphones up and fly away  
Blast off to the stars  
Cause I don't wanna think  
And when I feel all hope is gone  
He knows my pain  
Can you help me deliver it today  
Today, today I wanna fly away  
Today, today I wanna fly away Wish that I could fly away, fly away  
Looking for a brighter day, a brighter day  
Yesterday and take all of my ghetto boys and girls with me  
And if we don't know when we're in a race  
And pout a big smile on out mama face  
Fly-fly away, flying down the highway  
Living in the moment with my shorty right beside me  
Touch the sky up, take it higher  
Way up till we floating we let every body know that we  
Will make it right, make it right oh yeah today  
I turn my headphones up and fly away  
Blast off to the stars  
Cause I don't wanna think  
When I feel all hope is gone  
He knows my pain  
Can you help me deliver it today?  
Today, today I wanna fly away  
Today, today I wanna fly away I wish that I could hit the block chilling with the homies  
Posted on the corner with no cops checking on us  
Take everybody that's at the houses and make a motor  
Health care is wear I do it right now  
Tell every boy that had a father at home  
If I could I would make you my own  
No single woman should have to raise you alone  
Gimme your hand yeah understand together we  
Can touch the sky up, take it higher  
Way up till we floating we let everybody know that  
We gonna make it right, make it right oh yeah today  
I turn my headphones up and fly away  
Blast off to the stars  
Cause I don't wanna think  
When I feel all hope is gone  
He knows my pain  
Can you help me deliver it today?  
Today, today I wanna fly away

Today, today I wanna fly away Oh and I'm a turn my headphones  
And I'm a turn...  
Flying away ay ay  
Flying away ay ay  
They can't stop you  
They can't drop you  
I'm a turn my headphones and fly away I'm a turn my headphones and fly away  
Blast off to the stars  
Cause I don't wanna think  
And when I feel all hope is gone  
He knows my pain  
Can you help me deliver me?  
Hey! I'm a turn my headphones and fly away  
Blast off to the stars  
And when I feel all hope is gone  
My pain, can you help me deliver me?  
Today, today I wanna fly away  
Today, today, today, today
