[Feadz]

OK time to go on the disco beat, that's the way it goes
I got a freaky synth and I push up the sin until it pays the rent
What can you do for me? I'm in the track like 'woh, can you move for me?
That's right on the sound, get low like 'woh it's time to touch the ground
Real hot motherfucker, girls check me out like I'm on the X-Factor
And it might be it, sometimes I pop X just to feel the beat
Time to rock the shit, in the club with the sound I make it hard to sit
From the deep inside so let it pop right there and enjoy the ride, come on
Time to feel the stati-on, time to rock the beat
I came back shorty, I came back shorty, I came back shorty, I came back shorty, I came back
shorty, I came back shorty
Yes I'm easy on the track and I keep it funky
There is no need to talk, I got my own friends, I don't want to stalk
Come on, so let's not interrupt, I got a pretty idea on how you like to fuck
DJ don't change the sound, I like to see you bounce
Girl don't stop, keep me on the trance
Girl you out of space, I wanna keep this going like the bass
Oh, oh
