

# Loverman (feat. Priscilla Renea)

## Train

All night long I wait for my loverman  
Wait for my loverman, wait for my loverman  
All night long I wait for my loverman  
'Cause only my loverman can I've been out to sea for so long that I'm not sure if she still wants  
me  
Sure if she still loves me  
Sure if she's still there Will I see her light?  
Will it reach out to find me across the starry sky?  
Will she play our song when I get home?  
Baby put that record on. All night long I wait for my loverman  
Wait for my loverman, wait for my loverman  
All night long I wait for my loverman  
'Cause only my loverman can  
Since I wandered off the grid, I've been trying to find my way back  
Trying to catch a wave jet to my lovergirl Will I see her light?  
Will it reach out to find me across the starry sky?  
Will she play our song when I get home?  
Baby put that record on... All night long I wait for my loverman  
Wait for my loverman, wait for my loverman  
All night long I wait for my loverman  
'Cause only my loverman can Make you happy  
Make you smile  
Make you feel like you ain't felt in a while  
Make you breakfast  
Make you proud  
Make you feel like you could float on a cloud  
Will I see her light?  
Will it reach out to find me across the starry sky?  
Will she play our song when I get home?  
Baby put that record on... All night long I wait for my loverman  
Wait for my loverman, wait for my loverman  
All night long I wait for my loverman  
'Cause only my loverman can When he gets here I'm gonna let him know  
I'm gonna tell him so  
What I love about his boat  
All night long I wait for my loverman  
'Cause only my loverman can. (end)
