

# Disguise

## Motionless In White

[Intro]

Get up, get up!

Fuck!

(Get out, never get out, never get out, never)

(Never let go, never let go, never go)

[Verse 1]

Spiraling inside my own disguise

"This is my design"

But we're not here together

Mirror mirror, tell me who you see

Am I you or me?

I can never remember

But you can't hide forever

[Chorus]

I found myself by losing hope

I lost my way to find a home

I hid myself to stay alive

Now I'm ready to face my disguise

[Refrain]

(Get out, never get out, never get out, never)

(Never let go, never let go, never go)

[Verse 2]

I am locked within the box I built from the inside out

Reassured by my doubt I

I don't want this fucking co-dependent vice

But desperate measures call for desperate lies (Desperate lies)

[Chorus]

I found myself by losing hope

I lost my way to find a home

I hid myself to stay alive

Now I'm ready to face my disguise

[Bridge]

Sick of wearing a mask

Sick of hiding my face

Sick of every motherfucker that is in my way  
Sick of digging for answers  
While you bury the truth  
Fuck your method to my sadness, I will bury you  
Dig

[Breakdown]

I will not become a figure of my mistakes  
I will not become the mask, fear is not my fate  
You can't turn down anger  
You can't silence pain  
You will not put out the fire that burns in me  
That burns in me

[Pre-Chorus]

I sold my soul to my disguise  
I hid myself to stay alive

[Chorus]

I found myself by losing hope  
I lost my way to find a home  
I hid myself to spite my eyes  
I was losing myself in my disguise

[Post-Chorus]

Fear I follow  
Safe in sorrow  
(With) time I borrowed  
I'm ready to face my disguise

[Outro]

(Get down, never get down, never get down, never)  
(Never let go, never let go, never go)  
(Get out, never get out, never get out, never)  
(Never let go, never let go, never go)
