

I See Love (feat. Joe Jonas)

Jonas Blue

[Verse 1]

This is such a perfect place
I'm glad I found this with you
Our love reflected in your face
Only Heaven can beat this view[Pre-Chorus]
Come on, let's run and get lost in the crowd
Into the light as the night's comin' down
I'm double-tappin', I'm focusin' now
We're focusin' now[Chorus]

I see love

I see love around me
From a river to a flood
I see love around me (love around me)

[Verse 2]

I love you, helped me find my heart
I didn't even know my name
Then I was blinded by the dark
My eyes will never look the same[Pre-Chorus]
Come on, let's run and get lost in the crowd
Into the light as the night's comin' down
I'm double-tappin', I'm focusin' now
We're focusin' now[Chorus]

I see love

I see love around me
From a river to a flood
I see love around me (love around me)

I see love

I see love

From a river to a flood
I see love around me (love around me)

[Pre-Chorus]

Come on, let's run and get lost in the crowd
Into the light as the night's comin' down
I'm double-tappin', I'm focusin' now
We're focusin' now[Chorus]

I see love

I see love around me
From a river to a flood
I see love around me (love around me)

I see love

I see love

From a river to a flood

I see love around me

I see love
