

# Awww Dip

## Cobra Starship

[Chorus 1]

I don't mind falling down to try again  
'Cause when I get back up on my feet  
I make the music stop  
So hear me now  
Every bridge you cross is burning down  
Don't fail me now  
Every bridge you cross is burning  
(one, two, three, go!)

[Chorus 2]

Brothers, we waited forever  
Sisters, come on let's get it together  
Brothers, sisters, listen up  
Got to little secret that they're never going to stop us  
Oh, we'll burn them down

[Chorus 1]

[Chorus 2]

[Verse]

We can't waste the time we're given now  
All bets are off, we're turning this around  
'Cause I can smell a rat from miles, miles away, miles away  
And I'm ready for it  
Awww dip I used that line, line, line again

[Chorus 3] [x3]

Brothers, sisters, listen up  
Gotta little secret that they're never going to stop us

[Outro]

Oh, we'll burn them down
