

# One Kiss

## B2K

[Verse 1:]

She was so sincere  
The way she grabbed my hand  
And introduced herself  
Like no one else has done before  
And I can't lie  
I was hypnotized  
By the smile, and the talk and the style of the walk  
And when she tried to kiss me  
I just(sighed)  
Said to myself that this can't be (real)  
I lied to my mind but my heart it could (feel)  
Something was wrong (Don't worry)  
That's what she said (Now I)  
Look back on the night that changed my life  
I remember the things  
That made me call at night  
And to think that I betrayed me for one kiss

[Chorus:]

One kiss for all my trust  
One kiss for all my love  
One kiss caused me to break  
One kiss  
I just hate it  
One kiss  
One kiss  
One kiss  
That's where I started feeling  
One kiss felt so good  
But I never shoulda had that kiss

[Verse 2:]

I was so far gone  
She could do no wrong  
'Til I caught her in the act  
Downright gettin' it on  
How could I not see  
That eventually she would break my heart  
Where did it all start  
It started with a little bitty kiss [Chorus:]  
One kiss for all my trust (ohh I)  
One kiss for all my love (one kiss)  
One kiss cause me to break

One kiss  
I just hate it (i just hate it)  
One kiss  
One kiss (one kiss)  
One kiss (one kiss)  
That's where I started feeling  
One kiss felt so good  
But I never shoulda had that kiss[Hook]  
Mistook that kiss for kindness  
How could I be so blinded  
Shoulda read  
Instead I  
Made it easy ooooh  
But I won't let my heart get hurt (ooh)  
It was all about a lesson learned (ooh)  
And the lesson (ooh) that I learned was (ooh) taught to me by (ooh)  
One kiss[Repeat Chorus]
