[Verse]

She know a nigga screech, been casin' for a week
We sexin' on the beach and I ain't talkin' 'bout the drink
Open doors for her when I take her out to eat
I'm rollin' up a Sweet while she massage a nigga feet
That shawty so fine, I got a cig and wine
I tell her I don't cheat but she be knowin' a nigga lyin'
Friends can't stand me, they don't understand me
While they hoe hoppin', I got a shotgun in my Aston
Everything is G, [?]
Her bag a couple grand, and it compliments from me
See, I can be the king and she can be my queen
And we can be a scene at the field these others dream
Love the way she talk, love the way she walk
I'm always on her mind and she always in my thoughts
I got her at the house, we blowin' on an ounce
I'm cooking dinner for her tonight we ain't goin' out

[Drop]

Say you wanna face me
Tell 'em come and scrape me
