

A Nice Place to Visit (X-RX Remix)

Aesthetic Perfection

I welcome you to your hell
Look around
I hope you like what you see
Have a drink
Have a smoke
It's your home now so feel free
Swallow your panic
What's so tragic
About giving up your soul?
No way out
No way out
There's no way out of this hole

I know
That you want me
And I know
That you love me
And I hope
When you touch me
That you know you've touched damnation

To hell with damnation

No pity for people pretending
This place will not be a gift
Narcissist
Pessimist
Deluded piece of shit
No gnashing of teeth
Just the baggage you bring
It just lays at your feet
You'll never find your release
Silently
Beckoning
Into eternity

There's no place like home
There's no place like home
There's no place like home

There's no other place I'd rather go
