

Stay (Kicks n Licks Remix)

Crywolf & Ianborg

Stay
I can't lose you this summer
Have me as you will
Make
My eyes a little wider
Your hands amaze me still
Your resolve is in
My patience is running thin
I'll never know how I lived without this long
Run your lips against
Everything that's holding in
All my shadows Lights and sound
Please stay a little bit longer
I wanna forget these rules
Please hold my chest a little bit tighter
Break me into your room
My heart is pulsing with every shadow
Lights and sound
Please stay a little bit longer
Wait
You silence thundering thoughts, dear
Make my spirit still
Take
My heart and make it strong here
Heal my broken will
Peel back all my skin
Know my spirit, know my sin
I'll never know how we stayed apart this long
Press your hips against
Everything that's holding in
All my shadows
