

Idk What I Love

Demxntia

[Intro]

Always alone in my bedroom
Missed phone calls
I should probably hit them back soon
Half finished songs
I should probably get to those too
But I been losing all my motivation
I don't know what I love anymore
I don't know what I love anymore

[Chorus]

Always alone in my bedroom
Missed phone calls
I should probably hit them back soon
Half finished songs
I should probably get to those too
But I been losing all my motivation
I don't know what I love anymore
Cause all of the things that I used to do
Feels like a chore I forgot about
And all of the things that I used to do
Don't feel the same when it's not with you

[Verse 1]

But I'm keepin it moving
A song every week
Till I live in a movie
And no longer speak
About all of the demons
That I cannot hide
That don't seem to be leaving
The back of my mind
Any time soon, anytime soon (aye)
Any time soon, anytime soon
So I'm keepin it moving
Forget all the rest
Focus on all of the things I do best
Got nothing to prove
I put that to the test
I live in the moment

To kill all the stress
That I feel in my chest now
I feel on my chest now
I feel on my chest now
Now I'm

[Chorus]

Always alone in my bedroom
Missed phone calls
I should probably hit them back soon
Half finished songs
I should probably get to those too
But I been losing all my motivation
I don't know what I love anymore
Cause all of the things that I used to do
Feels like a chore I forgot about
And all of the things that I used to do
Don't feel the same when it's not with you
Always alone in my bedroom
Missed phone calls
I should probably hit them back soon
Half finished songs
I should probably get to those too
But I been losing all my motivation
I don't know what I love anymore
Cause all of the things that I used to do
Feels like a chore I forgot about
And all of the things that I used to do
Don't feel the same when it's not with you

[Outro]

And all of the things that I used to do
Don't feel the same, don't feel the same when I'm not with you
Oh well whatever happens happens
I'm only 18 I don't wanna die yet
