

People

Trashcan Sinatras

I am a human, you are human too
Can we come together
Into something new
And sow the seed for a greater good?

We'll grow if you let us
Thrive if you protect us
Shower us with love and perfect us
Up from the darkest earth
Comes the whitest rose

All because all of us are people
And people can fall in love
With other people
People who fall in love

Down in the city street
Two lovers meet
With a kiss on the cheek
At the end of the week
Evaporate in the city heat

You and I begin
Promising everything
Like orchards in the spring
We begin blossoming
Turning into people

People who fall in love
With other people
People who fall in love
'Cause we're people

We get to fall in love
Like other people
We get to show our love

We're people
Equal in the flesh and blood

We're people

Equal in the eyes of love
I feel like I'm one of them
I feel like I'm one of them
(People)

I feel like I'm one of them
(People who fall in love)

I feel like I'm one of them
(People)

I feel like I'm one of them
(People who fall in love)
(People)
(People who fall in love)
(With other people)
I feel like I'm one of them
