

Love the Heartless

Jelly Roll

Look in my eyes do you believe
The man in the mirror is looking at me
Here is the monster I came to be
This is the circus they all came to see
I'm here falling down I know, I know
I'll know I'll fuck this up somehow
Won't you pray for me Pray for me pray for me
I live in the darkness
I'm in love with the heartless oh yes I am
I still live in the darkness (I can't get away)
I'm in love with the heartless, I do all I can
I feel like it's all I know
Baby I can't let go
This monster I can't control
I hope the lord saves my soul (My soul)
I have struggling playing tug of war with a few of the demons I know
I have been shunned and drugged through the mud
I don't hold a grudge I been here before
There is still fight in me I can be
anything I set my mind to be yes I can
The storm that's inside of me rages so violently
God shine your light on me, here I am
Won't you pray for me
Pray for me pray for me Look in my eyes do you believe
The man in the mirror is looking at me
Here is the monster I came to be
This is the circus they all came to see
I'm here falling down I know, I know
I'll know I'll fuck this up somehow
Won't you pray for me
Pray for me pray for me
I live in the darkness
I'm in love with the heartless oh yes I am
I still live in the darkness (I can't get away)
I'm in love with the heartless, I do all I can
I feel like it's all I know
Baby I can't let go
This monster I can't control
I hope the lord saves my soul (My soul) I know I need you lord
Nothing that I need more
Keep my head in the clouds, keep my feet on the floor
Won't you pray for me, pray for me, pray for me

Won't you pray for me, pray for me, pray for me I live in the darkness
I'm in love with the heartless oh yes I am
I still live in the darkness (I can't get away)
I'm in love with the heartless, I do all I can
I feel like it's all I know
Baby I can't let go
This monster I can't control
I hope the lord saves my soul (My soul) Come and save me lord
