

# Freedom Song

## Blackberry Smoke

That man in the mirror starin' back at me  
Ain't the man I used to see  
I been walkin' the line a long time  
I need a change  
Breakin' my back workin' double shifts  
The weight of the world's gettin' hard to lift  
I'm startin' to think I need to break a link  
In this chain

Somethin's got to give  
This ain't no way to live

[Chorus]

Put me on a highway  
The interstate  
A dirt road  
To anyplace  
As long as I'm long gone  
Chasin' down some blue skies  
In my old truck  
Tune the world out  
Turn the radio up  
Sing along to my freedom song

Hey I got a good woman and she understands  
Every now and then her old man  
Needs some down time  
To clear his mind and unplug  
This time tomorrow you won't see my face  
There'll be one less rat runnin' in this race  
I'll be soothin' my soul with a fishin' pole  
That's what I love

[Chorus]
