

Giant In My Heart

Kiesza

[Verse 1]

I'm trying to pretend it isn't true
But even when I want it's like I can't get over you, over you
Over you, over you

Every time I try to tell you why
I turn my face and tears run down my eyes
It's over now, over now
Babe it's over now, over now

[Pre-Chorus]

So give me all the magic
And give me all the magic that we made
It's like a giant in my heart babe
This love is greater than the heartbreak
So give me back the moments
Just give me back the moments that we made
It's like a giant in my heart babe
This love is greater than the heartbreak, yeah

Giant in my heart babe
Giant in my heart babe
Babe, babe, babe...
Giant in my heart babe
Babe, babe, babe...

[Ad-libs]

Wow doo doo doo doo doo dow

[Chorus]

What's the point of going through
All the pain of leaving you?
What am I supposed to do?
In my heart there's only you
Baby I can't lose you
Going through
All the pain of leaving you?
What am I supposed to do?
In my heart there's only you

Baby I can't lose you

[Verse 2]

I'm lying to myself that I'm okay
But when I see your photograph I'm still not over you, over you
Over you, over you

And every time I will your love away
It comes back in a rush reminding me
It's over now, over now
Over now, over now

[Pre-Chorus]

So give me all the magic
Just give me all the magic that we made
It's like a giant in my heart babe
This love is greater than the heartbreak
So give me back the moments
Just give me back the moments that we made
It's like a giant in my heart babe
This love is greater than the heartbreak

Over you, over you
Hey, hey...
Still not over you, over you
Giant in my heart babe...
Over you, over you
Hey, hey...
Still not over you, over you
Giant in my heart babe...

[Chorus]

What's the point of going through
All the pain of leaving you?
What am I supposed to do?
In my heart there's only you
Baby I can't lose you
Going through
All the pain of leaving you?
What am I supposed to do?
In my heart there's only you
Baby I can't lose you

[Bridge]

My love, my love, my love, my love
My love, my love, my love, my love
My love, my love, my love, my love
My love, my love, my love, my love

There's no escaping you...

[Chorus]

What's the point of going through
All the pain of leaving you?
What am I supposed to do?
In my heart there's only you
Baby I can't lose you
Going through
All the pain of leaving you?
What am I supposed to do?
In my heart there's only you
Baby I can't lose you

[Spoken]

I tried my best, and I'll confess, I'll love with less
I gave the most, and took the loss, from what I chose
I fought for you, you lead me to, a painful truth
And now I wait, without a heart to save
