

Symptoms of You

Lindsay Lohan

[Verse 1]

There a good kind of pain, an insane kinda sane
When I'm around you, when I'm around you
There a chill in the heat, feel the sky at my feet
'Cause I adore you, I can't ignore you, yeah

[Chorus]

I'm not ill, I don't need to take a pill
To fix what you do
Cure can't come through
Cause baby all I do is suffer from the symptoms of you

[Verse 2]

There's a left kinda right, there's a blind kinda sight
Looking at you, looking at you
And there is no light in the moon and it's winter in June
When I'm without you, when I'm without you, yeah

[Chorus]

I'm not ill, I don't need to take a pill
To fix what you do
Cure can't come through
'Cause baby, all I do is suffer from the symptoms of you

[Bridge]

And it trips me off my feet
I think I'm falling in too deep
Do you feel it too?

[Chorus]

I'm not ill, I don't need to take a pill
To fix what you do
Cure can't come through
'Cause baby, all I do is suffer from the symptoms of you
I'm not ill and I don't need to take a pill
To fix what you do
Cure can't come through
'Cause baby, all I do is suffer from the symptoms of you

[Outro]

La la la
La la la
La la la
