

Turn the Page

Bobby V

[Intro]

Yeah..

Bobby V..

Dark child....uh

We doing it like this right here

Check this out

Yeah

[Verse 1]

Can't believe you chose to start the night this way

We were just about to go out

Then you said wait baby no sit down

Baby girl, I just knew right then

Something was wrong with ya

You said I can't be with ya

Then it started to feel like my heart jumped out my chest

Felt like I lost my breath

This is not how its supposed to be baby

The story has just begun

We've only turned the page once

And trust me this is such a beautiful one

[Chorus repeat 2x]

Baby

You dont have to turn the page

I've read this story*

It ends with you and me

You dont have to walk away

The story will change

Baby please don't turn the page

[Bridge repeat 4x]

Dont turn it , dont turn it Dont

Baby please dont turn the page

[Verse 2]

No dont give it up

Try to believe what im seeing in us

Dont front

Girl you know I could possibly be the one
And I know you might be stuck in the past
But I wanna give you my heart to make it all better
All he took you through
I would never do that to you
He made it so hard for me to love you

But Im here now
How can I make it clear now
Story ain't over not now
I can't let you end this now baby

[Chorus repeat 2x]
Baby
You dont have to turn the page
I've read this story*
It ends with you and me
You dont have to walk away
The story will change
Baby please don't turn the page

[Verse 3]
As if it wasn't enough
I got the ring in my truck
I been plannin all week to get on one knee
Baby this just ain't you
I know that he hurt you
And we're nothing alike, i'll prove it all tonight
And you know I love you
And everything would be cool
And you'll say you love me
And forget all your pain
You know this is true
Im doin all this for you
So ending it all
You dont have to!

[Chorus repeat 2x]
Baby
You dont have to turn the page
I've read this story*
It ends with you and me
You dont have to walk away
The story will change

Baby please don't turn the page
