

# Eclipse

## Autumn's Grey Solace

Staring in mirrors  
Waters surround  
High and dry  
Wave away goodbyes

Every solar eclipse happens  
Makes a stronger moon for nature

Swallow, devour  
Never to come back

Every solar eclipse happens  
Makes a stronger moon for nature

Never be stopped  
Gravity's pulling  
Feel it press on  
In our horizons  
Free from the sun

Every solar eclipse happens  
Makes a stronger moon for nature
