

81 (Prequel)

Sean Leon

[Verse]

I'm into wild shit
Back in the 905 it's like '09 and shit
Had a 9 to 5 but nigga 5 to 9 I did some wild shit
My palms was itching
I was in a war with my competition
Trynna amount to shit
It was cutthroat, my bro was cutting class to go cut coke
Trynna count some shit, yeah
Trynna count some shit
New accountant just to double count it
Full amount, I want the full amount
Dodge a jab and hit you with the counter
I'm gon' be rich 'cause being high and broke was always such a downer
Still went missing on you
Still thinking of me when you finally found her
I left her like I found her, on my dick
Oh my god, I'm gon' make that stack
Rick Ross, I got too much sauce
These niggas won't hold me back
These niggas won't hold me back, lord knows
Dropped out, I had a crash course with life fast
Now I'm fast forward, my life gorgeous
I had to drop courses for the drop Porsche
Now my drive Porsche
Even in a Uber my drive Rover
