

White Noise

Sofa Surfers

Upside twisted
Getting long
Wanna get it right but get it wrong
Act like you knew it all along
Signs that you followed
Begged, stole or borrowed
Won't make a difference when you're gone

Silence
More than deafening
Check the clock
Time's wearing thin
Going out with less than you brought in
Signs that you followed
Begged, stole or borrowed
Won't make a difference when you're gone

White noise
Are you listening?
Sounding off at high velocity
Falling down in synchronicity
Signs that you followed
Begged, stole or borrowed
Won't make a difference when you're gone

White noise
Living compromised
Sounds of the wells running dry
Opposites beneath a common sky
Signs that you followed
Begged, stole or borrowed
Won't make a difference when you're gone

Try to get back in
Try to break back in
Let the darkest in
Don't mind giving in
Cause it eats you up
Yeah, it chews you up
And it spits you out

Yeah, it twists you out
