

One More Thing

L7

I've just about had enough
I'm drowning from too much stuff
I get scared when the telephone rings
Someone talking about one more thing One more thing
Yeah, it's one more thing
One more thing to put in line
One more thing to waste my time
One more thing that I can't take
One more thing I'm gonna break
You need more, well get in line
Too many things grabbing at my time
I'll tell you, brother, right out flat
I'm gonna have to throw you back One more thing
Yeah, you're one more thing
Yeah, your one more thing to put in line
One more thing to waste my time
One more thing that I can't take
One more thing I'm gonna break
Yeah, you're one more thing
Yeah, you're one more thing I fix my engine and the tire goes flat
It's one more thing that I can't have
Politics messing with my rights
There's nothing fun to do tonight
One more thing
Yeah, it's one more thing
Yeah, its one more thing to put in line
One more thing to waste my time
One more thing that I can't take
One more thing I'm gonna break
Yeah, its one more thing
Yeah, its one more thing
Yeah, its one more thing
Yeah, its one more thing
