

Air (feat. Sauvane)

CloZee

Being silent for too long
Hard day after day
and it weights on my heart They think that I belong
To them, never ask
I let them walk over me Would you do it for me?
Could you be careful?
I'm surrounded
I need some air
Should I turn faster to make you disappear?
Should I turn faster?
That's what the moon told me
Don't you think I'm aware?
They're killing themselves
Under my roof, so selfish Have nothing to offer
Water & Flowers
but they get bored really fast
Would you do it for me?
Could you be careful?
I'm surrounded
I need some air
Should I turn faster to make you disappear?
Should I turn faster to make you disappear?
That's what the moon told me
