

# Odd Future

## JAHKOY

Girl

What part of life can I avoid the pain  
To free my heart and let my mind astray  
This feeling that I feel is hard to trace  
It takes my soul right into outerspace  
So lost but almost found in misbelief  
The tenderness of being in between  
An ego that I force myself to feed  
Ignoring what I want for what I need  
I wanna emphasize on your blessings  
Loving you in your sections  
Doing full time when I check in

(2)

Tempted by feelings that feel so familiar  
Blinded by love and all of the above  
Taking by wishes with no permission permitted  
I hate that my lifestyle has caused you to think that I'm not committed  
The more that I say I don't want it, I know that I need it  
You take it away and let me do all the fining  
You know how much I crave you  
You know how much I hate to  
But you give me that discipline then put some cinnamon on it  
Girl damn you're so sweet to me  
Do what you wanna  
I could kiss on your feet  
You got all of the heat on me  
Your winning me over  
I hate being sober  
Just doesn't feel the same anymore  
It's felt in my vein  
I'm so over the games  
But there's no one to blame anymore

()

If it doesn't feel the same anymore  
It's all on me  
It's all on me  
There's no one to blame anymore  
Cause it's all on me  
It's all on me  
If it doesn't feel the same anymore  
It's all on me  
It's all on me

There's no one to blame anymore  
It's all on me  
It's all on me(3)  
If you could tell me now  
Baby tell me what it is  
I been looking for an answer  
You done put me through the test  
We couldn't be just friends  
Got me thinking about the masses  
How far could we take it if we lifted off  
Would you hold me down when things start to pick up  
So far left I would hope to get it right this time  
Hate to think I barely ever cross your mind  
But I think about it way too much  
How you gone get fucked up  
And tell me it's nothing  
Inside it kills  
Tell me how it feel  
When you really can't feel nothing  
Stuck on my words  
Why does it hurt  
Every time I say something  
Sometimes it hit so hard you aim to be numb  
But()  
If it doesn't feel the same anymore  
It's all on me  
It's all on me  
There's no one to blame anymore  
And it's all on me  
It's all on me()  
Just want you you you  
Girl I just want you you you  
I just want you you you  
You you you  
Girl I just want you to want me  
Girl I just want you you you you  
Girl I just want you you you you  
Girl I just want you you you  
Girl I just want you to want me
