

What I Live For

Rob Bailey & The Hustle Standard

Walk like i built this town
Steps so light, i barely touch the ground
Everybody wants to know how
Brick by brick i put them in the ground

Walk, walk like I built...
W-w-walk like I built this
I do it for my people, family business
And everybody wants to know how
Take a good look, you will now witness

Wake up, wake up it's a brand new day
I got a fresh breath and a full plate

W-w-wake up, wake up up
This is not a game
I'll take my fresh breath and go my own way

This is what I live for [live for]
This is what I, this is what I live for [live for]
This what I live for [live for], this is what I
This is what I live for [live for]

Measure my growth by the season
Limits don't exist if you don't give them reason
But everybody wants to know how
I built this dream and never had a doubt

Walk like I built this town
Steps so big I shook the fuckin' ground
Everybody's coming at me now, now, now
I-I-I'm never coming down

This is what I live for [live for]
This is what I, this is what I live for [live for]
This what I live for [live for], this is what I
This is what I live for

Don't look back
Don't look back at me

And act like I didn't tell you
Everything I'm about
Woohoo oohoo
I tell you what I live for
I tell you what I life for

Wake up, wake up up
This is what I, this is what I, this is what I live for
W-w-wake up, wake up
This is what I, this is what I, this is what I live for
