

# Freaks

## MC Chris

Let's meet at the mecca where we munch on desserts  
Let's order at a dining chain I'm ordering first  
Can't decide on appetizers or what sandwich to get  
Can't deny it I'm excited gets my appetite whet  
Homework's over parents snoring and I need to go roam  
Phil picks me up in a jeep, a Suzuki that owns  
We ride on river road  
While we're blastin' Reign in Blood  
We're smoking swisher sweets  
While we off road in the mud

After causing as much havoc as we can in this town  
After all the abandoned houses and the burial grounds  
We head over to Denny's where we smoke and we flirt  
Well I never do nothing see I'm kind of a nerd  
Don't drink don't smoke break a cigarette in half  
I'm a drug free virgin I don't fit into the pack  
They can tell that I am different and they love me for that  
Always good for a laugh always paying for gas

I'll take a cup of cocoa  
And a slice of cookie pie  
Take the junior in the corner  
That is giving me the eye  
Waitress gets a big tip  
If she keeps bringing me fries  
For not a lot of dollars  
We'll make Denny's our dive

I got a little cash allowance from my daddy  
I'll take a blender blast or a moons over my hammy  
Buy the table chicken fingers big spender in the house  
Ambush someone with the cola, cough sugar out my mouth  
Cookie dough with the butters or a creamer suicide  
Waiting for the order so we're all just wasting time  
Levitating forks no one knows how I do it  
Food arrives at the table and we're diving into it

Freaks in their flannels and their over sized denims  
Most of them are hungry they've been fogging up lemons

Jocks hate them in the halls make fun of their hair  
People treat them like they're freaks  
But they probably don't care  
I think they're cool feel like I wasted four years  
Horsefeathers in Waukegan sip on tea 'stead of beers  
So trees makes an appearance and we're feeling defiant  
Suburban counter culture I really think you should try it

I'll take a cup of cocoa  
And a slice of cookie pie  
Take the junior in the corner  
That is giving me the eye  
Waitress gets a big tip  
If she keeps bringing me fries  
For not a lot of dollars  
We'll make Denny's our dive

One of us  
We accept you  
One of us  
One of us  
We accept you  
One of us
