

Renfro

Paul Russell

[Verse 1]

I went from tryna make a change in the world
To chasing all the change in the world
And maybe acting crazy with girls
It was all about a chain and a pearl for a twirl at a nightclub
Do it for the FaceTime
And the 10k pay that I may find
And the race-based hate in the daytime
Slip minds for some a3 brake lights
No, otherwise everything sowed up
Old souls tryna bump like hold up
Like hold up, like hold up
Day ones out here still show love
Some don't but it's how it all goes huh
I just show up at the show and sing a note bruh
That's a gold touch
Till it blows up
Till the shows lux
Keeping hopes up
Keeping dreams big
Make a plan and the whole thing leave quick
Still time b line to the b list
But imma be where he is and we can relive it on the weekends
Yeah, just try and see this
Another year we blew to pieces, see

[Chorus]

Yo, it's simple
Stuff we used to bump on Renfro
I do music for my kinfolk
So keep this joint as your momento
Said it's simple
Stuff we used to bump on Renfro
I do music for my kinfolk
So keep this joint as your momento

[Verse 2]

I know my new stuff is a bit wordy
But tell me how long it's been? Ten thirty
All these big dreams done went blurry

Like get burnt out late and get a Benz early
My Volvo here been dirty
I'm in Jersey
I said I'd be a politician, my friends worried
Some don't get it, jus want the beef, bruh
So I send jerky
And I sin often, my skin dirty
That's big mercy
But it's ten thirty so we'll end chirpy

[Chorus]
Yo, it's simple
Stuff we used to bump on Renfro
I do music for my kinfolk
So keep this joint as your momento
Said it's simple
Stuff we used to bump on Renfro
I do music for my kinfolk
So keep this joint as your momento
