

Bad Dreams

Lyrics Born

[Lyrics Born & Joyo Velarde]

Woke up in the middle of the night, cold sweat
Eyes stinging, no breath, legs clinging to the bedside

Hard pressed just to get a little rest every night
Same shit can't remember last time that I slept right

This situation's gotten out of control
With all this stress and confrontation I just might overload
My problems follow me to sleep at night won't let me go
The more I hide the more they thrive deep down inside of my soul

Listen

Got burnt by women, partners in business
Landlords and tenants, got served by creditors

We have 'em, depressions
We can't keep dwelling on problems

Close relatives, past friendships don't last
No benefits plan, wrote a letter to my senator

We have 'em, depressions
We can't keep dwelling on problems

This situation's gotten out of control (hey hey hey)
With all this stress and confrontation I just might overload (hey hey hey)
My problems follow me to sleep at night won't let me go (hey hey hey)
The more I hide the more they thrive deep down inside of my soul

Sing it

These bad dreams
These bad dreams

These bad dreams
These bad dreams

Shit, now I lay me down to sleep
Please god let it end once again let me live life

We have 'em, depressions

We can't keep dwelling on problems

'Cause I can't do another long dance with a ghost
See my head wanna come around half past midnight

We have 'em, depressions
We can't keep dwelling on problems

This situation's gotten out of control (hey hey hey)
With all this stress and confrontation I just might overload (hey hey hey)
My problems follow me to sleep at night won't let me go (hey hey hey)
The more I hide the more they thrive deep down inside of my soul

We have 'em, depressions
We can't keep dwelling on problems
These bad dreams
