

Save Me (feat. Adara)

Adventure Club & Terravita

Everybody is faded
Everyone is wasted
Everybody is waiting
For someone to save them
Taking another hit of this
Breathing in and forget again
Cause we take cares over clarity
Anything is better than reality
Take me away with you
Take me away with you
Take me away
Take me away with you
Everyone is escaping
Chasing every crave in
And everybody is searching
For someone to save them
Taking another hit of this
Breathing in and forget again
Cause we took cares over clarity
Anything is better than reality
Take me away with you
Take me away with you
Take me away
Take me away with you
