

Question My Heart

Kaysha

Girl you asked me this morning
Would I give you anything
Everything in this world is for you
You can ask me anything
Oh, don't be afraid
I'm not like your ex boyfriend
I want to tell you like it is
You are baby, and this feeling is so real
And with this ring, I'm gonna make you a lady

You don't have to question my heart, I love you
Baby can't you see in my eyes, I love you
You don't have to question my heart, I love you
Baby can't you see in my eyes, I love you

I'll try to change my ways for you
I'll be a better man
I'd change my past if I could
But lets think about the future
Wanna make you dream again
Make you fly like the birds
Just because of the way you loving me
You are baby, and this feeling is so real
And with this ring, I'm gonna make you a lady

You don't have to question my heart, I love you
Baby can't you see in my eyes, I love you
You don't have to question my heart, I love you
Baby can't you see in my eyes, I love you

So much...

Look me in the eye baby girl
I love you

You don't have to question my heart, I love you
Baby can't you see in my eyes, I love you

You don't have to question my heart, I love you
Baby can't you see in my eyes, I love you
My love for you, I love you

Baby girl, baby girl
