

# Always

## Dope

Let's go back to the start  
Like it use to be  
Before you fell apart  
And you blamed it on me  
Back when you were my friend  
Do you remember back then  
All the plans that we made  
Can we get back to those days Those days come every now and again  
No way I feel like this is the end but Always is in your eyes  
In always I realize  
That always is you and I  
For always  
Always  
Let's go back to the start  
Like it use to be  
Before your broken heart  
And your hatred for me  
Back when all this began  
Do you remember back then  
All the plans that we made  
Can we get back to those days Those days I don't know what I pretend  
No way I feel like this is the end but Always is in your eyes  
In always I realize  
That always is you and I  
For always  
Always  
Is there any wonder I'm not right  
Where do we go now where do we go now  
Is there any wonder you won't fight  
Where do we go now where do we go now  
Have there been to many wrongs to right  
I'd say goodbye but Always is in your eyes  
In always I realize  
That always is you and I  
For Always  
Always
