

# Hesitation

## Primer 55

Feeling like I'll never understand this  
All the things I hate about myself  
The mistakes I made, I never planned that  
Every time I'm good, there's something else  
Realize I'm always over thinking  
Never learned just how to let things be  
Search inside myself to find the answers  
I am not the man, I want to be  
Look inside of me, tell me what you see  
Look inside of me, tell me what you see  
Pick it apart, tell me what you see  
Just don't you give up on me  
'Cause I don't feel the same in my own skin  
(Look inside of me, tell me what you see)  
And I'm fed up with battles I can't win  
(Look inside of me, tell me what you see)  
(Look inside of me, tell me what you see) Constantly in fear of isolation  
Is someone after me? I just can't tell  
Never felt like leaving myself open  
Living life, depending on myself  
Look inside of me, tell me what you see  
Look inside of me, tell me what you see  
Pick it apart tell me what you see  
Just don't you give up on me  
'Cause I don't feel the same in my own skin  
(Look inside of me, tell me what you see)  
And I'm fed up with battles I can't win  
(Look inside of me, tell me what you see)  
(Look inside of me, tell me what you see)
