

# Over Myself

Kiesza

[Verse 1]

Stop now, don't take over me  
My heart is burning up inside  
And I felt it go up when your eyes  
Told another lie  
You never say it to me right  
Baby this is my plea to you now  
Something's going down  
I thought it was all going right  
Then you changed my mind

[Pre-Chorus]

This is my love and I can give it up  
I think I gotta break your heart  
To get over myself

[Chorus]

Yeah, yeah  
I think I gotta break your heart  
To get over myself  
Oh, Oh  
Whoa, Whoa

[Verse 2]

Desire, oh it's killing me  
I feel it deep inside my bones  
So I'm chillin' my soul  
I'm shattered  
I can't find no peace  
Still trying to find an inch of truth  
In your mystery  
But I'm stronger  
Than I was before  
I finally broken down the wall  
Where you shut the door

[Pre-Chorus]

[Chorus 2]

Giving it back

I wanted what you had but  
I'm giving it back  
I'm sorry and I see that way that you're  
Looking at me  
I'm breaking in but now  
I think I gotta break your heart to get over myself

[Bridge]

Tip of your love but I just don't feel it  
Got what I want but I just don't need it  
You're better off but you won't believe it  
Over my, over myself

[Chorus 2]
