

Miss You (Cabu Remix)

Young Franco

Mmmmh
Find a way Find a way
Find your way to me
'Cause I'm losing your touch
I miss you
What did I do to change
How you look at me
Was I doing too much
But I miss you
Lifting me up yeah
Just under
what I feel when I'm not with you,
with you
I'm seeing you everywhere
So make your move
'Cause I'm not gonna be the one or two But I miss you
I'm just missing you missing me too That's on you But
I miss you
But I'm missing when you're missing me too
That's on you
But I miss you I'm just missing you missing me too
That's on you
But I miss you
But I'm missing when you're missing me too
That's on you
But I miss
All the calls that you made
Staying up with me
And the feelings we caught
I miss you
And the time that you gave
when you couldn't leave
Isn't that what you want
I miss you
Take your time
Tell me when
I'll stop missing you
I'll stop missing you
Take your time
Tell me when
I'll stop missing you
I'll stop missing you

Lifting me up yeah
Just under what I feel when I'm not with you,
with you
I'm seeing you everywhere
So make your move
'Cause I'm not gonna be the one or two But I miss you
I'm just missing you missing me too That's on you
But I miss you
But I'm missing when you're missing me too
That's on you
But I miss you
Lifting me up yeah
Just under what I feel when
I'm not with you, with you
I'm seeing you everywhere
So make your move
'Cause I'm not gonna be the one or two But I miss you
I'm just missing you missing me too That's on you
But I miss you
But I'm missing when you're missing me too
That's on you
But I miss you
